SUMMARY

iOS and Flutter Developer with 11+ years of experience in mobile application development, specializing in Swift, UIKit, Flutter and Dart. Experienced in developing production applications, integrating REST APIs, payment gateways and backend services, and managing App Store and Google Play deployments.

Experienced in modern AI-assisted development workflows using tools such as GitHub Copilot, Claude and ChatGPT for code generation, debugging, refactoring, technical research, documentation and problem-solving.

In 2025, founded and developed a car wash business and its customer-facing mobile application while also undertaking freelance Flutter and mobile application development projects.

EMPLOYMENT HISTORY

Organization	Designation	Date	Duration
Mobtecnica Consultancy, Kakkanad	iOS Developer	September 2015 – August 2016	1 year
A2 Solutions, Kadavanthra	iOS Developer	August 2016 – November 2017	1.3 years
Syahy Tech Solutions, Bangalore	iOS Developer	November 2017 – July 2019	1.8 years
Caxita Tech Solutions, Kochi	Flutter & iOS Team Lead	August 2019 – December 2024	5.4 years
ABD Car Wash / Self-Employed	Founder & Mobile App Developer	January 2025 – Present	1.8 years

PROJECTS

ABD Car Wash

Technology: Flutter, Dart, Supabase, Cashfree **Role:** Founder Developer **Description:**

- Founded and managed an app-based car wash business while continuing mobile application development.
- Designed and developed a cross-platform Flutter mobile application for ABD Car Wash to enable customers to book car and bike detailing slots without waiting at the service center.
- Implemented real-time slot availability and booking management, allowing customers to select available dates and time slots based on service-center capacity.
- Developed vehicle management, booking history, user profile, and service-booking workflows.
- Integrated Supabase for authentication, database management, Row Level Security, and backend services.
- Implemented temporary slot locking during the booking process to reduce duplicate bookings and booking conflicts.
- Integrated Cashfree Payment Gateway for online payments and handled payment-order creation, payment status, and webhook-based transaction updates.
- Implemented booking notifications and customer communication workflows for booking confirmation, reminders, and service updates.
- Used AI-assisted development tools including GitHub Copilot, Claude and ChatGPT for code generation, debugging, refactoring, technical research and troubleshooting.
- Managed Android and iOS app deployment, including Play Store and App Store submission, release management, and production issue resolution.
- Developed and maintained the application while simultaneously operating the car wash business, gaining hands-on experience in product development, customer requirements, business operations, and end-to-end application delivery.

Android: [Google Play Store](#)

iOS: [Apple App Store](#)

Landsteam

Technology: Flutter / Dart **Role:** Developer Real-estate application for viewing properties available for buying or selling and submitting property-related queries.

- Worked on Flutter application development, UI implementation, API integration and feature maintenance.
- Used AI-assisted development tools such as GitHub Copilot, Claude and ChatGPT to support coding, debugging, refactoring and technical problem-solving during development.

Android: [Google Play Store](#)

Kamber

Technology: Flutter / Dart **Role:** Developer Sports village application covering badminton, turf, gym and swimming facilities with membership options.

- Worked on Flutter application development, UI implementation, feature development and application maintenance.
- Used AI-assisted development tools including GitHub Copilot, Claude and ChatGPT for code generation, debugging, implementation research and resolving development issues.

LawyerLinked

Technology: WebView

Role: Developer

Application for connecting lawyers with users and booking appointments.

Tripjet

Technology: Flutter / Dart

Role: Developer

Travel application containing flight, hotel and package modules. Worked on the hotel module. The application supports English and Arabic.

iOS: [Apple App Store](#)

QGO Online

Technology: Swift

Role: Developer

Travel application with flight, hotel, transfer and sports modules. Worked on the transfer module for hotel-to-airport and airport-to-hotel journeys. Supports English and Arabic.

iOS: [Apple App Store](#)

Syahy

Technology: Swift

Role: Developer

Hotel booking and airport transfer application. Supports hotel booking in major cities, multiple currencies and PayFort payment gateway integration. Supports English and Arabic.

EDUCATION

B.Tech in Computer Science

MET's Engineering, Mala, Calicut University

SKILLS

Mobile Development: iOS, Flutter, UIKit, SwiftUI, Flutter/Dart

Languages: Swift, Objective-C, Dart

iOS Technologies: Xcode, Cocoa Touch, Auto Layout, Core Location, Core Data, CocoaPods, Swift UI

Flutter: Provider, Bloc, Riverpod

Backend / APIs: REST APIs, Supabase

Payments: Cashfree, Pay Fort

Databases: SQLite, Core Data

AI-Assisted Development: GitHub Copilot, Claude, ChatGPT

Tools: Xcode, Postman, SourceTree (Git), Visual Studio Code

Deployment: Apple App Store, Google Play Store

CERTIFICATIONS

- B.Tech Course Completion - Met's Engineering, Mala
- Service Letter – Aitrich
- Service Letter – Mobtecnica
- Service Letter – A2 Solutions
- Service Letter – Syahy
- Service Letter – Caxita
